Student Management System

Develop A SIMPLE GUI For Student panel in which Student can able to create their profile.

Profile contain:

1. Name

2. Branch (Computer Science, Mechanical, Electrical, Electronics)

3. Mobile number

4. Gender

Implement CRUD operation by using separate GUI.

Separate GUI for

       Read Operation

       Write Operation

       Update Operation

       Delete Operation

       Make a screen View All student list with detail.

       Technology stack: HTML, CSS, JS, PHP, MySQL, AJAX, JQUERY
